22	4			AM30-166-22 2) Mega Duo

* VE = 12 Stck.

- 1) with AM12-432-16 , ideal for palatine flap operations
2) with wider, specially designed attachment for cheek and lip protection
rhodium-coated, both sides

Mega Duo

Front side rhodium plated

Cone Socket
US thread with conical end of thread
only suitable for mirror handle **AM30-171-02**

Ø mm	Size	plane	concave, enlarging effect

Ti

Why scaling instruments should always be sharp:

1. Sharp instruments allow precision work with little application of force.
2. Blunt instruments polish the dental stone, bruise the soft tissue and require more application of force.

What you need for instrument sharpening:

1. Sharpening stones (rough, fine, and round for burr removal)
2. Sharpening oil (prevents excessive heat build-up; preserves the sharpening capacity of the sharpening stone)
3. Test stick (made of acrylic, for sharpness test)
4. Good light (sharp edges do not reflect light)
5. Clamping device (e.g. vise)

What to check after sharpening:

1. Roundness of back surfaces
2. Continuous sharpness of cutting edges
3. Perfect shape of working end (e.g. check against catalog illustration)
4. After several sharpening cycles, verify that the instrument is still strong enough for application. Replace instrument if necessary.

Color coding of scalers and Gracey curettes

1. All scalers are color-coded green – 3 points distributed across the diameter. At the same time, the color code marks the finer working end.
2. The Gracey Standard, Gracey Rigid and Gracey Mini curettes also have the color code on the side of the finer working end.
Example: Gracey 1/2 = color code applied on side of working end no. 1.
3. For even better differentiation between Gracey Standard and Gracey Mini on the one hand and Gracey Rigid on the other hand, Gracey Rigid curettes are coded with six color points.
4. Color-coded Gracey Standard curettes are also available with a 10 mm handle.

left: color
(lower figure,
e.g. insert 3)

right: no color
(higher figure,
e.g. insert 4)

	Ø		
Gracey Mini	8 mm	x	
Gracey Standard	8 mm	x	
Gracey Big	10 mm	x	
Gracey Rigid	8 mm		x

Fields of application for Gracey curettes

- 1-2, 3-4, 5-6 Incisors
- 7-8, 9-10 Premolars and molars (buccal/lingual)
- 11-12, 15-16 Premolars and molars, mesial
Furcation: mesial portion of the distal root
- 13-14, 17-18 Premolars and molars, distal
Furcation: distal portion of the mesial root
