GENERAL SURGERY

ABOUT APRIKOS MEDICAL

Aprikos Medical is a Norwegian manufacturer of medical devices. We supply healthcare buyers with safe, high-quality products backed by full product responsibility and compliance with the European Medical Device Regulation (MDR 2017/745).

Our business is built on integrity, responsibility, and long-term trust. Every process is aligned with the operational and regulatory standards expected in modern healthcare systems.

OUR SURGICAL INSTRUMENTS RANGE

This catalogue presents Aprikos Medical's portfolio of reusable surgical instruments, with more than 8,000 SKUs across general and specialist disciplines. The range is designed for modern operating theatres, outpatient facilities, and specialty clinics.

The range includes:

General Surgery Instruments

Orthopedic Instruments

Instruments for Dental and ENT

Micro and specialty instruments for precision work

Obstetrics and Gynecology Instruments

All instruments are engineered for precision, durability, and ergonomic handling to support consistent performance in surgical settings.

CERTIFIED AND COMPLIANT

All products are CE marked and manufactured under ISO 13485. Our operations fully comply with MDR 2017/745, covering product safety, clinical performance, and post-market oversight. Our MDR conformity process included an audit by a notified body, reviewing both our quality system and technical documentation.

For distributors, hospitals, and procurement professionals, this means:

- Complete technical documentation to support tenders, registrations, and approvals.
- Reduced administrative delays during audits and evaluations.
- Lower supplier risk, with clearly defined accountability.
- Assurance that products are manufactured and monitored with patient safety at the core.

Compliance for us is not just a legal requirement. It is a safeguard for healthcare providers and a quality signal for those seeking reliable long-term partners.

BUILT FOR RANGE, CONTINUITY, AND VALUE

Aprikos Medical offers a broad portfolio, competitive pricing, and dependable supply. This combination helps partners compete effectively without compromising on quality or compliance.
